

Host Page Discovery

For this project, we were to create a single webpage to display all of the work we created for MACA 1840: Design for the Web 2. I want my web page to be simple, easy to navigate. My main adjectives for my webpage are *clean, fun, elegant, creative, modern, and professional*.

My Template:

I chose the template FlexStart. It had a lot of different section options to choose from. I specifically gravitated towards the hero image, the parallax image effect at the top of the page, the scrolling animation of the sections, and the gallery.

See the original template here:

<https://bootstrapmade.com/demo/FlexStart/> tstrapmade.com/demo/FlexStart/

Design:

For my design, the things I wanted the most was to have a clean layout that had feminine colors, such as purple and/or pink. I wanted a simple navigation at the top of the screen that turns into a hamburger menu bar on smaller screen sizes. I wanted a gallery section to show off my assignments and use it as links to the finished pages. For my about me section, I was unsure fully what I wanted it to look like, but I tossed around the idea of having a picture of me and my thoughts about the class. Ultimately, I went with a more general picture of a laptop to represent web design.

Content List

Host Page Content Outline

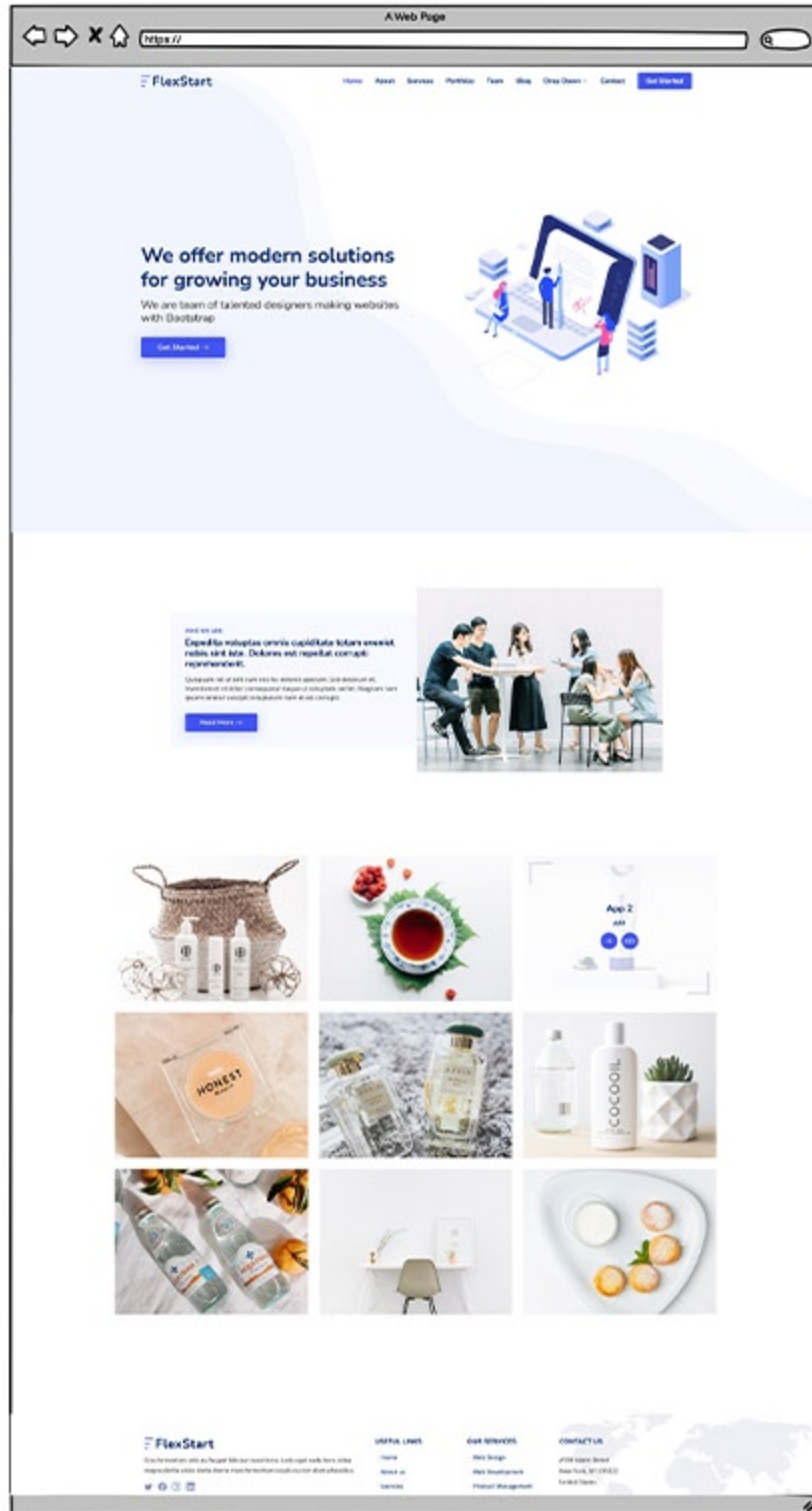

CONTENT LIST

Content	Form	design/build information
Browser tab	<title></title>	Amanda Ray MACA 1840
Name	text	MACA 1840 Design for the Web 2
MACA 1840		Page Title
MCC logo	img	header or first page
Website Purpose Statement	text	A brief statement about the class and what we learned
Navigation buttons to assignments	cards	small circles over my image gallery
An identity element about you: image(s), illustration, favorite quote, statement	statement image	Statement about myself and my reflection of the class.
legal statement	text	copyright in footer

Wireframe

Host webpage

7920px - 1200px "xl" bootstrap

1200px - 992px "lg" bootstrap

768px - 576px "sm" bootstrap

576px - 0 default

Elegant Graceful *Natural*
Modern **BOLD** Creative

MACA 1840 Design for the Web 2

In this class, we grew our upon our web skills and learned new techniques.

What We Learned

- ✓ Web 1 Review
- ✓ Flex
- ✓ Responsive Web Design
- ✓ Bootstrap
- ✓ Off-Canvas and Modal Windows
- ✓ Customizing Templates

ABOUT ME

MACA 1840 Experience

My name is Amanda and I'm a MACA student at Macomb Community College. During my time in MACA 1840 I learned a variety of new skills to help aid in designing for the web. My favorite project in the class was our responsive design assignment because we really got to put our design and layout skills to the tes. It was fun to rearrange items to optimize our designs for different screen sizes.
